Stylist

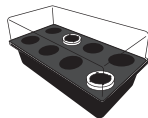

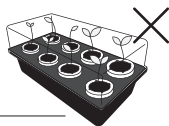

3b2. Select a plant type to start planting.

Plant type

Notes:

DO NOT let any sprouts grow taller than 1cm in the seed starter.

Only transfer the germinated planting capsules, non-germinated seeds can be left in the seed starter until they germinate.

If seeds do not germinate after the suggested sprout day, check 'Warranty' in 'Seed Kit Instructions' for next step or contact [info@grow-green.com](mailto:info@grow-green.com).
