WARNING: TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT REMOVE ANY OF THE APPLIANCE'S COVERS OR PANELS: THERE ARE NO USER-SERVICEABLE PARTS INSIDE. REPAIRS SHOULD BE CARRIED OUT BY AUTHORIZED SERVICE PROVIDERS ONLY.

1. IMPORTANT SAFEGUARDS

Read all instructions and keep this manual:

• To avoid electrical shock, fire or injury, do not place the cabinet of the appliance, aspara® Wireless Planting Sensor (stylist only), the power cord, the power adaptor or the plug in water or any other liquid.

• Do not place the appliance in a location where it may be played with or misused, such as near unsupervised young children or people with reduced physical, sensory or mental capabilities.

• Do not use unauthorized attachments with the appliance: they may cause fire, electric shock or physical injury.

• Do not use the appliance outdoor or for commercial use. It is designed for indoor household use only.

• Do not place the appliance near a heat source or a naked flame.

• Do not place the appliance on an uneven surface or near the edge of a surface where it may be knocked off.

• Do not place anything heavy on the top of the appliance.

• Do not place anything heavy on the grow tank.

• Do not move the appliance when in operation. To move it, always unplug it and empty all water within it first. When carrying the appliance, dismantle the appliance or support it from the bottom. Never carry it by the side panels or the top of the appliance.

• Do not use the appliance if it has been dropped or damaged in any case. Always return the appliance to the nearest authorized service facility for examination and/or repair if it has malfunctioned.

• Do not look directly at the LED grow lights when they are on.

• The LED grow lights of this appliance are not replaceable; when the lights reach the end of life, the appliance should be replaced.

• The appliance is suitable for use in damp locations.

• The appliance must only be connected to electricity after assembly.

• Do not use the appliance if it has a damaged power cord or plug.

• Never let the power cord dangle.

• During the installation, the power cord should be:

- routed so that they are not subjected to strain and are protected from physical damage.
- visible over their entire length.

• used within their rated ampacity as determined for the maximum temperature of the installed environment (60°C).

• During the installation, the power cord should not be:

- concealed or extended through a wall, floor, ceiling, or other parts of the building structure.
- located above a suspended ceiling or dropped ceiling.
- permanently affixed to the building structure.

Planting Tips

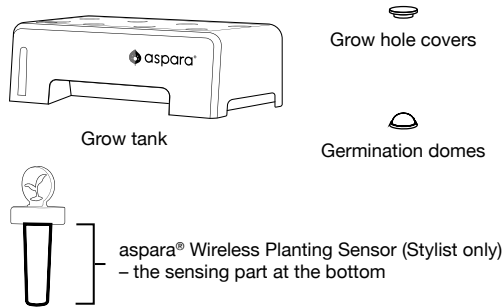

5. CLEANING

The appliance should be cleaned between each growing session or if it has not been used for a while. Make sure the appliance is not in any planting programs.

Parts that should be thrown away

Parts come in contact with plants that can be washed with water

- DO NOT use water hotter than 40°C/ 105°F.
- DO NOT use bleach or harsh cleaners.
- DO NOT wash in the dishwasher.

Parts **AVOID** touching water, can only be cleaned by wiping with a damp cloth

- Make sure the cabinet is disconnected from the electricity supply when cleaning.
- Do not clean the power plug nor allow water to enter the cabinet.
- NEVER immerse the cabinet in water (or any other liquids) or wash it using free-running water.

6. WARRANTIES

6.1 aspara® Stylist and aspara® Stylist Lite

Limited One-Year Warranty

Register your smart grower online (www.asparagarden.com) within a month from the day of purchase to enjoy 1-year complimentary warranty. Personal information including your name, email, product name, mac & S/N numbers and region of purchase will be needed. You will become our member automatically upon registration to enjoy exclusive offers.

This warranty is available to consumers who purchased aspara® Stylist or aspara® Stylist Lite (from now on called the 'appliance') at retail for personal, family or household use. Except as otherwise required under the applicable law, this warranty is not available to retailers or other commercial purchasers or owners. For commercial purchase, please inquire our selected distributors for warranty details.

We warrant that your appliance will be free of defects in materials and workmanship under normal home use for a period of 1 year from the date of original purchase. Please keep your original proof of purchase in order to obtain the warranty benefits.

If you have an enquiry regarding your appliance, read this manual or our website (www.asparagarden.com). You can also seek consumer support by email or direct call to your local authorized aspara® service center. Please refer to www.asparagarden.com for the most updated contact at your authorized aspara® service center. You can also email us at care@asparagarden.com. If our consumer service suggests that your appliance may be malfunctioning and your appliance is within the warranty period, please send or bring it, together with your proof of purchase, to an authorized aspara® service center. To find your nearest center, visit www.asparagarden.com (or the website specific to your country/region).

Your appliance has been manufactured for use specifically within the region of your purchase and with authorized accessories and replacement parts only. This warranty expressly excludes any defects or damages caused by

using the appliance not in the region of your purchase, attempted use of your appliance with a converter, as well as use with accessories, replacement parts, repair service or alternations other than those authorized by Growgreen Limited. This warranty does not cover any damage caused by accident, misuse, shipment or uses not adhering to this user guide. This warranty excludes all incidental or consequential damages.

6.2 aspara® Seed Kit

Please refer to aspara® seed kit instructions for seed kit warranty.

7. REGULATORY NOTICES

7.1 FCC COMPLIANCE STATEMENT

North America
United States: Federal Communications Commission [FCC]

FCC COMPLIANCE STATEMENT:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

INFORMATION TO USER: This appliance has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This appliance generates, uses, and can radiate radio frequency energy. If not installed and used in accordance with the instructions, it may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this appliance does cause harmful interference to radio or television reception, which can be determined by turning the appliance off and on, the user is encouraged to try and correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. This can be done by moving the appliance to a different location.
- Increase the distance between the appliance and the receiver.
- Connect the appliance to outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the appliance.
FCC RF Radiation Exposure Statement
Caution: To maintain compliance with the FCC's RF exposure guidelines, place the unit at least 20cm from nearby persons.

7.2 CANADA, INDUSTRY CANADA (IC) NOTICES

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:
(1) This device may not cause interference.
(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Caution: To maintain the compliance with the RF exposure guideline, place the unit at least 20 cm from nearby persons.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Mise en garde : Pour assurer la conformité aux lignes directrices concernant l'exposition aux RF, placer l'appareil à au moins 20 cm des personnes.

7.3 DIRECTIVE 2012/19/EU

European Union
European Union: CE directive

Under the environment with Surge and Injected Current, the sample was in abnormal / stopped operation. It could be reset by re-plug the power.

STATEMENT: Hereby, Growgreen Limited, declares that aspara® Nature (from now on called the 'appliance') is in compliance with the essential requirements and other relevant provisions of Directive 2012/19/EU. The symbol on the appliance or its packaging signifies that this appliance has to be disposed separately from ordinary household wastes at its end of life. Please kindly be aware that this is your responsibility to dispose electronic equipment at recycling centers so as to help conserve natural resources. Each country in the European Union should have its collection centers for electrical and electronic equipment recycling.

For information about your recycling drop off point, please contact your local related electrical and electronic equipment waste management authority or the retailer where you bought the appliance

- Do not dispose of the appliance with household waste.
- Disposal of the packaging and the appliance should be done in accordance with local regulations.
